

PEOPLE, TOOLS, AUTOMATION, RESOURCES: 2026

Who and what do you have to support you on your journey?

This is your support system, mapped out in one place. It's every person you can call when you're stuck, every tool that makes your work easier, every resource that's helped you along the way.

You already have more support than you realize. When you start listing it all out, you'll see just how much you've already built. Add everyone and everything that currently supports you and your business, plus the people and resources you know you can count on when help or inspiration is needed.

Keep it updated. Add new partnerships. Note when a tool stops working for you. Update contact information. **This gets more valuable the more current it is.**

And yes, The Creative Retailer team belongs on your list.

Hillary
